Prof. Porshey, of Louisiana, on the Physics of the Gulf of Mexico-Mrs. H. K. Ingram, of Nashville, on Atmospheric Concussion

As a Means of Destroying the Germs of Disease in Plants and Animals-The Banquet by Mr. John M. Lea, at the Maxwell House.

ASHVILLE, August 31.—The attendance he third day's session of the American associa-for the advancement of science was as great as of the second. In fact, the large attendances, the fact that the audiences are composed of the lifectual classes of both sexes, is a fair criterion high the increasing interestin the deliberations he association may be estimated. The inces-ity hot weathers which has prevalled since the day of its organization has been no drawback, it seem willing to make any sacrifice of comfort a present at the meetings of the representative potists of the reation. the amounced the acceptance, by the standing unittee of invitations to visit Vanderbilt universitive o'clock in the afternoon, and to attend the on at the Maxwell house at nine o'clock in the g. given by Judge John M. Leu, president of that onessee historical society, on behalf of that dona or ened fire about nine o'clock on the

cuncements to feed the visitors. He also said that transcements had been made to extend the excursion to East Tennessee a nightahama, if any desired to go in the than Chaitanooga. The railroad company at generously assigned five sleeping coaches for a exclusive use of the scientists. Prof. Safford, of Vanderbill university, formerly ate geologist, called attention to the rich fields for e set. This in Sequatchie valley, near Victoria, alch wou, do be one of the points visited on the ex-

Industrial Resolved. That the shall be formed a permanent Resolved. That the shall be formed a permanent Resolved. That the shall be formed a permanent minister to the members and fellows on the description of the members and the encourage and the encourage sent of art and manufacture; in the United States, and the shall be above resolution that felv remarks bearing upon the importance of the parties and varied resources of Tenness the limited in the Initiated states. The Turkish battery was making a splendid practice, and fired just as the immense and varied resources of Tenness the general tension of the parties of the fact and the Initiation of the battery. The Turkish battery was making a splendid practice, and fired just as struck with the last shell. The Turks cheered and dashed through the village, and away to the fet to Papskoi, like a pack of hounds. The Russian camps were hastily elegated out, two guns covering their retreat and making excellent practice; but the Turks had been published and instigated by the stratafa bay canal enterprise, read a paper on the physics of the Gulf of Mexico. Jefferson Barracks Greatly Damaged-Fences, Porches and Trees Blown Away-Effects at

Miss the Blow-Severe Lightning and Rain-Storm at London, Ontario.

JEFFERSON BARRACKS, Mo., August 31. The storm of wind and rain at St. Louis arsenal this afternoon did considerable damage to the public store-houses and fences, destroyed a large portion of the beautiful ornamental trees upon the parade ground. It took the roofs and porches off of the northern row of barracks, carrying them over the buildings southward and half-way across the parade ground, blew down a number of large trees in the soldiers' quarters and left a gen-eral air of ruin and desolation to what was previously the prettiest locality in the vicinity of St. Louis. Fortunately no one was injured.

Paris, August 31.—Gambetta appeared to-day before the judge of the civil tribunal of the Seine. The judge read several passages from the Lille speech, which he said constituted an offense against President
MacMulion and an insult to the ministers.
M. Gambetta replied that he went to Lille
with the fixed intention to deliver a political speech, which the situation rendered necessary, but he protested strongly that he desired to slander or insult no one.

The government has dropped proceedings against Chardon, the senator for Savoire, charged with making a political speech at an illegal meeting, because he claimed the par-liamentary privilege on the ground that the senate having simply adjourned until the new chamber meets it is technically still in way the storm burst. LONDON, ONT., August 31.-A sever

session, and no member can be prosecuted The transfer of proceedings against Gambetta from Lille to Paris is apparently due to business was entirely suspended. At Park Hill two horses were killed by lightning and the discovery by the government at the last moment the *Progres du Nord* merely quoted a speech from the *Republique Francaise*. It is now stated that the chief charge against a house partly demolished. were burned in the same vicinity. St. Louis, August 31.-A Globe-Democra

the government is greatly aggravated in the provincial districts by the fact that owing to the sudden dissolution of the chamber all Nicholas has appointed General Stoloff his chief of staff.

The Post's Berlin special states that the caravity of the guards. Grand Duke Vladimir commands an infantry regiment in that corps. General Gourko takes command of all the cavalry of the guards. Four newly-formed reserve divisions will undertake the defense of the coasts of the Black Sea and replace the seventh and tenth army corps, which On the other hand, the disunion of

ding it.

The importance of these advantages must be evi The importance of these advantages must be evident to planters, especially the greater strength of the bands. Whenever the band breaks the cotton is liable to be wasted or pilfered; besides, most local freight rates on railroads and steamboats are so much per bale, also drayage and storage. Hence the importance of putting up heavy bales at plantation presses. PRODUCE importance of putting up heavy bales at plantation presses.

The strength of the Grip Tie is from 2800 to 3000 pounds. The Arrow Tie, from 1800 to 2000 pounds. For compressing cotton bales we defy competition—and this, in the future, is to determine the merit of cotton ties, as the closer the cotton can be compressed the chapter it can be transported from one point to another.

The recent reduction in the price of Ties was probably due to the competition of the Grip Tie. All are aware that the American Tie Company have for years had a monopoly in the Tie business. This year, however, they are only offering the Arrow Tie. This they have placed in the hands of all dealers with whom they could contract to keep no other Tie in stock, endeavoring thereby to dive out all competition. Therefore, we claim it is not he interest of all consumers of Ties to use the Grip Tie: First, because it is superior in every respect to the Arrow Tie; second, because you are assisting to the worldess shackles of a monopoly.

Order through your own merchant, or direct from us; the price in either case shall be as low as the Arrow Tie. COMMISSION
